# Creating a Donut Chart

Montana Data Portal

How do I create a donut chart?

To create a chart, select a filtered view or dataset

Select the Visualize button in the upper right hand corner of a view or dataset.

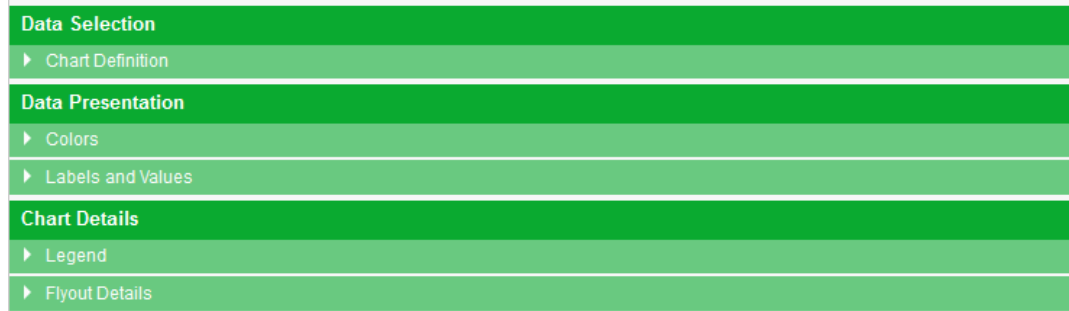

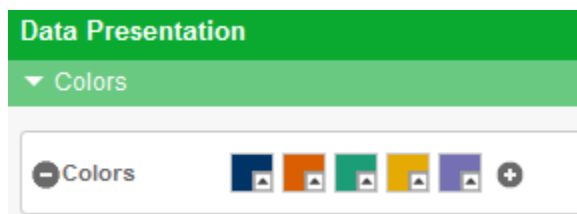

Select donut chart: Donut

The options for this chart type are

Data Selection
▶ Chart Definition
Data Presentation
▶ Colors
▶ Labels and Values
Chart Details
▶ Legend
▶ Flyout Details

Under Chart Definition, Choose the label and value of the data. (For this example, we selected city name and current rent).

Data Selection
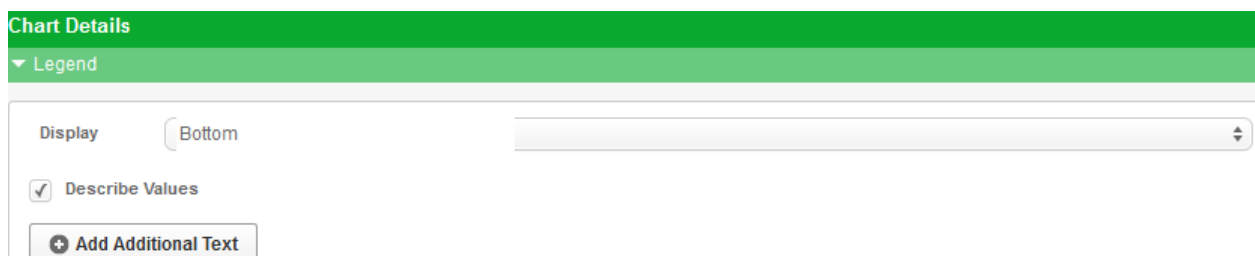

▼ Chart Definition

* Choose label data

CityName

* Choose value data

CurrentRent

⊕ Add Data Column

Under the Data Presentation Colors Selection, Options to change the color are available

Data Presentation

▼ Colors

⊖Colors

Creating a Donut Chart

Under the Data Presentation Labels and Values Selection, There are options to include labels, show percentages instead, or set the smallest angel of the chart, which will wrap up smaller data values based on your selection into an 'other' category.

Under the Chart Details Legend Selection, You can select where you would like the legend to display and if you would like series descriptions to display.

Creating a Donut Chart

Under the Chart Details Flyout Details Selection, Select which data points will display when you click on the data point.

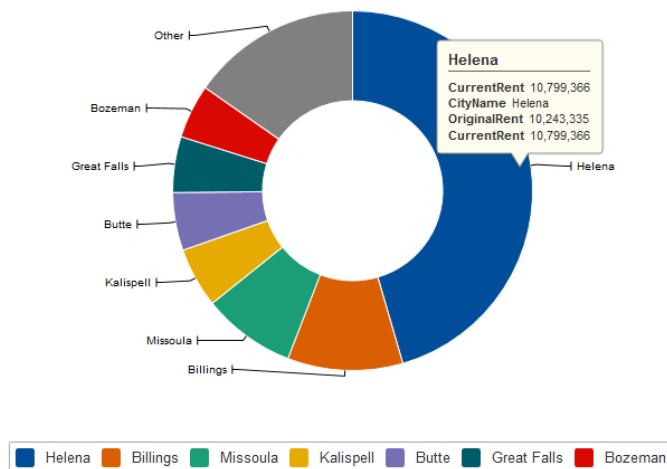

Save your view if it is an existing view or select save as to create a new chart view.
